

## Customer Testimonials

Albums Unlimited is hands down one of the best of the best. I have been using this company my whole career. Customer service is very personal and I am not a number, but a name. My turn around time is always on time. Once I had a special request for a rush and Albums Unlimited came through with no questions asked with communication through the whole process so I was not left in the dark. My clients were ecstatic. For my business, my vendors are a direct reflection of me. All of my clients love their albums and I have never had any problems with binding, warping or mounting. Albums Unlimited products are something I am proud to offer my clients. Gene Higa, Photographer

"About 5 years ago I had two sample albums made. They have been through wedding shows and about 1.5 million hands and the albums have held up wonderfully. Thank you for your wonderful service and an unmatched product." Foland's Photography

I use the Kingston album as my "signature wedding album". I love how many options are available so my clients can customize their wedding album to their specific taste/style. The binding is clean, the pages are thick and perfectly straight. The Kingston album paired with my custom layouts showcase my images better than any other product I have come across.
